

**AMENDMENTS TO THE SPECIFICATION:**

Please amend the specification as follows:

Please replace the paragraph beginning at page 7, line 34, with the following amended paragraph:

The optical elements 22, 23, 24 and 25 of the module 20, which are assembled in series and thus form an optical chain, are furthermore mounted on a two-axis movement system 21 ~~which is not represented in the figures~~. This system 21 can move these optical elements in the two directions coplanar to the fluorescent screen 12 so as to bring in particular the enlargement assembly 22 opposite any desired zone of this screen.

Please replace the paragraph beginning at page 8, line 21, with the following amended paragraph:

The module 30 also comprises means (not represented in the figure) for controlling the system 21 for moving the elements of the optical chain of the module 20, in particular of the enlargement assembly 22.
